

OMNIUM

Leadership, efficiency and expertise in manufacturing.

OMNIUM is your loyal partner in the manufacturing of **crop protection, adjuvant and plant nutrition products**. Our leadership in the chemical manufacturing industry can translate into profitability for our customers through:

- Purchasing power with raw ingredients and packaging materials
- Expertise in R&D, engineering and design, processing and packaging
- Real-time reporting and inventory control
- Efficient shipping, receiving and storage

At OMNIUM, our employees adhere to stringent safety protocols and environmental stewardship standards. Our reputation for excellence is validated through a quality control and assurance program that includes more than one million annual product tests. OMNIUM is a reliable partner and a loyal steward of your brand.

With seven production complexes across the United States, we stand ready to serve manufacturers of crop protection, adjuvant and plant nutrition products.

Multiple production complexes to serve you better.

OMNIUM has production facilities across the country equipped to fulfill a vast array of manufacturing needs:
